Topps® MultiUse Cleaner™ Concentrate**COLOR:** Pink**PRODUCT DESCRIPTION:**

This economical alkaline based cleaner is as perfect for heavy duty jobs as it is for use in regular cleaning. A simple change in concentration turns the formula into a cleaning powerhouse suitable for most any project.

Proven effective in so many every day and industrial applications, this cleaner cuts through grime across a variety of conditions.

This complex make-up combines 10 ingredients – twice that of ordinary cleaners. Three uniquely different surfactants and an active wetting agent carry the cleaner deep in between dirt particles, where it rapidly begins to dissolve the grease, oil, and other airborne pollutants which bind grime to surfaces.

The dirt then releases as particles suspended in water, where it simultaneously is removed while washing, without requiring a rinse in most applications.

Start with 118-177 ml. per liter of clean water when using a power-wash. Use more where needed. Apply full strength direct to heavier soiled areas such as warehouse floors, roofs or pavement and scrub with a stiff brush prior to flushing it away.

Typical Specifications:

Viscosity	Water Thin
Weight per gallon	3.8 – 3.9 kg.
Solids by weight	1.4%
VOC	10 g/l
pH	9.5 - 11
